

Criticizes Baxter

Editor of The Bee — Sir: I demand law and order on the Fresno State College campus, and I demand, as a taxpayer, the removal of Dr. Norman Baxter who has been the chief instigator of lawlessness on campus.

Six and one-half full-time positions were authorized by the legislature for the La Raza Studies at FSC. Dr. Baxter, who obviously does not believe in "law" and order, refused to carry out this decree.

Dr. Baxter deliberately delayed the hiring of La Raza instructors until the last minute; he knew the applicants could not wait around all summer hoping to teach at FSC when they had other job offers.

Dr. Baxter led the Chicano community of Fresno to believe, until 9 a.m., Sept. 12, that he would hire at least three available Chicano instructors. There were qualified applicants.

I personally take this as an insult to the Chicano community of Fresno. The implication is — Chicanos are so damn dumb they do not have any members of their group who are educated enough to meet Dr. Baxter's qualifications.

Dr. Baxter was warned by well-educated, moderate Chicanos that his lack of a law and order attitude would cause violence.

I call for law and order, and such people as Dr. Baxter must be removed in order to achieve this.

Fresno.

MEMO SARATA.
